Subject: FW: Meeting w/ Range Resources & EPA

Hi Jeanne and Cindy,

I just had a discussion with Robert Ford and Barb Butler that I think we need to follow up with you both on.

What might your availability be in tomorrow morning, perhaps about 8:30a or 9:00 am EDT? Since Cindy is in LV, I was hoping we could catch her before the ERIS meeting this way.

Thanks,
Alice

Subject: Re: Meeting w/ Range Resources & EPA

Hi Joe,

Regarding the meeting next week, below are the names of expected attendees from NETL (all cc'd on this e-mail):

Ale Hakala
Dan Soeder
George Darakos
George Guthrie (maybe)
Rick Hammack

Who do you expect to be there from Range?

Maybe we can all iterate on an agenda before the end of the week to make sure we cover everything we need to. I can take a first crack at it if you are in agreement.

Thank you,

George

Hello all, I will ask Merilee to send a map with directions to everyone. Merilee can also coordinate the video link. We will discuss potential well sites at our meeting. We would also like for you to present your proposed field plans. We look forward to meeting with you.

Can you provide a point of contact by which we could attempt this in advance of the meeting? We have contract support for this function in our

Cincinnati facility, and I would like to confirm operation in advance. If the videoconference does not work, we can always use teleconference as an alternative.

Joe Frantz at Range has proposed a meeting later this month to begin the selection process and work through details. Please let me know if you and other key members from the EPA team are available.
